ISO 14001:2015 Environmental Management System - Lead Auditor Course (Preparation Course)

Overview

The aim of this course is to provide participants with the knowledge and skills required to perform first, second, and third-party audits of environmental management systems, in accordance with ISO 14001 and following guidelines from ISO 19011 and ISO/IEC 17021, as applicable. Upon successful completion of this course, delegates will be qualified to satisfy the training requirements of an auditor for ISO 14001:2015.

Course Objectives

At the end of this course, the participants will be able to:

- Understand the purposes of an environmental management system, environmental management system standards, environmental management system audits and third-party certification
- Understand the role and responsibilities of an auditor in planning, conducting, reporting and following up on an environmental management system audit.
- Determine the evidence needed to demonstrate conformity to ISO 14001:2015
- Apply the principles, processes, and methods of auditing
- Demonstrate the activities involved in preparing for an audit
- Establish and plan the activities of an audit team
- Manage the audit process
- Prepare the audit report and perform an audit follow-up
